

Why Can't I Go To School?

My name is _____

My teacher is _____

I am _____ years old.

I go to Merrylands Primary School and Nursery.

My school is closed. The school is closed to keep me safe.

At the moment, there is a virus called the Coronavirus which is spreading across the country. Coronavirus spreads quickly and makes people sick and this is why Merrylands is shut as the teachers want the children to stay at home and be safe.

Being at home is best for me. At home, I have less contact with other people - just my family. This will keep me safe.

The teachers at Merrylands will send me work to do on Google Classroom. I will try my hardest to do my work at home.

I might feel sad because I am not able to go to school. This is OK. Most children will feel sad as they will miss their teacher and friends.

Merrylands will let my parents/carers know when it is safe for me to come back to school. Until then, I will stay at home and be safe.
